

Alma Chronicles III

Angie's Promise

In a vision, Angie sees her fiancé's plane crash in 1987 in the American Southwest. She begs him not to leave, but he ignores her warnings, takes off in the plane, and dies before her eyes. Angie refuses to accept a future without her love. When lucid dreaming fails to keep his spirit near, Angie searches for a chink in the barrier of death. And she finds one.

In the Alma Chronicles, souls, bound together in a circle of love, passion, betrayal, and murder, reincarnate lifetime after lifetime from the ancient Celtic world through twenty-first century America.
